Summary

I am a Passionate React, Next.js & TypeScript Specialist with 3+ years of experience building responsive, high-performance web and mobile applications.
Proficient in React, Next.js, TypeScript, Angular, and modern animation libraries (GSAP, Framer Motion).
I thrive in collaborative, cross-functional teams and take pride in translating complex designs into clean, accessible, and scalable code.
Committed to writing maintainable software and delivering user experiences that are both intuitive and visually polished.

Professional Experience

Jekalo Digitals — Frontend Software Engineer Nov. 2023 - Present

Projects: Connershop · Arc Pay · Grosolar Android · Grosolar IOS

- Built and maintained a Progressive Web Application (PWA) for Connershop, enabling users to perform transfers, deposits, bill payments, and loan requests seamlessly.

- Developed key features for Arc Pay, a fintech payments platform, using React and TypeScript.

- Built reusable, accessible component libraries shared across both products, improving team development speed and consistency.

- Implemented state management using Redux Toolkit and Zustand, and conducted code reviews enforcing best practices in code quality and component architecture.

The Pake Group — Frontend Software Engineer Nov. 2023 - Sept. 2025

Projects: PakeGroup Website · Davistar Auto

- Developed and maintained the company's public-facing website, ensuring flawless responsiveness across all devices.

- Collaborated with designers and backend engineers to align visual design with functional requirements.

- Leveraged React and modern frontend tooling to deliver a performant and maintainable codebase.

- Participated in peer code reviews, promoting consistency and high standards across the team.

Heart Felt — Frontend Software Engineer

June. 2023 - July. 2023

Projects: Heart Felt Website

- Translated Figma designs into responsive, pixel-perfect UI components using React and TailwindCSS.

- Integrated RESTful APIs using React Query, improving data-fetching efficiency and reducing loading states.

- Participated in Agile ceremonies including sprint planning and daily stand-ups, consistently delivering tasks on schedule.

- Collaborated with designers and backend engineers to ensure UI consistency and a smooth end-to-end user experience.

Education

High School Certificate

Awada Secondary School, Obosi, Idemmili North, Local Government Area, Anambra State Nigeria

2017 - Oct. 2021
